

Minor in Nutrition

The minor requires at least 15 credits, including at least 6 credits taken at Iowa State University in courses numbered 300 or above. The minor must include at least 9 credits that are not used to meet any other college or university requirement. The same courses may not be applied to two different minors.

Along with the courses listed below, students must meet all of the corresponding pre-requisites. Typical courses needed to meet pre-requisites for the Nutrition Minor can include, but are not limited to: BIOL 211, MICRO 201/L, CHEM 163/L or 177/L & 178, CHEM 231/L, BBMB 301, and/or courses in the FS HN department. Students should carefully check the Iowa State University Catalog to ensure that they know course pre-requisites, understand the sequence of the courses, and develop a plan for completing all pre-requisites and requirements by their planned graduation dates.

2009-11 catalog requirements:

1. For students from outside the department

<u>Course</u>	<u>Credits</u>
FS HN 167	3
FS HN 265	3
FS HN 360	3
