Two Tenure Track Positions in the Department of Nutrition
University of North Carolina at Chapel Hill

Position Summary: The Department of Nutrition in the Gillings School of Global Public Health and School of Medicine at the University of North Carolina at Chapel Hill invites applications for two tenure-track positions at the Assistant or Associate level, with rank commensurate with experience. The Department is recognized as a global leader in research and training and consists of three integrated Divisions: Biochemistry, Epidemiology and Intervention/Policy. Our breadth of scientific and policy work spans from cells to society, and moves from discovery to delivery to dissemination. We are seeking translational nutrition researchers and teachers who cross disciplinary borders. Additional information about the Department can be found at http://www.sph.unc.edu/nutr/.

Education Requirements: A PhD or equivalent in nutrition or another relevant discipline is required.

Qualifications and Experience: Successful candidates will have clear evidence of capacity to obtain external funding and will be expected to advance a high quality, collaborative, translational research program in one or more of the following areas: behavioral or environmental interventions using contemporary trial designs; nutrition and food policy; food systems and access; patient-centered or clinical outcomes research; controlled feeding studies; dissemination and implementation research; systems biology; the microbiome and related metabolic processes; epigenetics; and metabolomics. Preference will be given to applicants seeking to work collaboratively to advance the science of nutrition, including understanding heterogeneity in responses to interventions at the individual, community and/or societal level. Experience in global health and health disparities is desirable, as is a research focus on cancer, cardiovascular disease, diabetes, or other non-communicable diseases that significantly impact health in the US and globally. Other responsibilities include formal and non-formal teaching, research mentoring to undergraduate and graduate students, and participation in university, community and professional service.

To Apply: Applicants must complete an online application at [link] and must attach a curriculum vitae, cover letter summarizing qualifications, and a list of 3 references. Candidates with questions should contact the search committee co-chairs, Dr. Alice Ammerman or Dr. Stephen Hursting, at UNCNutritionfaculty@email.unc.edu.

The University of North Carolina at Chapel Hill is an equal opportunity, affirmative action employer and welcomes all to apply regardless of race, color, gender, national origin, age, religion, genetic information, sexual orientation,
gender identity or gender expression. We also encourage protected veterans and individuals with disabilities to apply. Employment will require successful completion of background check(s) in accordance with University policies.
